MOTIVATIONAL QUOTE

*"Raise your words, not voice.
It is rain that grows flowers, not thunder"*

Jalaluddin Ar-Rumi

SITI ASMA BINTI MOHAMMED

ASSISTANT PROFESSOR
DEPARTMENT OF COMPUTER SCIENCE

RESEARCH EXPERTISE

Information Systems Evaluation
Data/Information Quality Evaluation

QUALIFICATION

- Sains dan Pengurusan Sistem - Doctor of Philosophy, Universiti Kebangsaan Malaysia (UKM)
- Database Management Systems - Masters Degree, University of Sydney
- Management Information System - Bachelor Degree, International Islamic University Malaysia

PROFESSIONAL MEMBERSHIP

International Requirements Engineering Board

ACHIEVEMENT AND AWARDS

Certified Professional for Requirements Engineering (CPRE) Foundation Level Pecipta22, Silver Award Copyright (IIUM Sejahtera Profiling (ISP) Version 3, Appointment as data quality expert - Validating PhD proposed model for Faculty of Information and Communication Technology, UTEM

ABOUT ME

I am a senior lecturer with more than 10 years experience in teaching Software Engineering and conducting research in system quality evaluation. Among my research work that have real industry impact were with two prominent tertiary healthcare organisations in Sydney, Australia and Kuala Lumpur, Malaysia. Both researches were to evaluate the system and information quality practices, which involved the business process re-engineering (BPR) of the clinical process and reverse engineering of the medical database. My current research is on quality evaluation of dyslexia application.

RESEARCH GRANTS

- Digital Intervention Model for Parents with Autism Spectrum Disorder Children in Perlis, Office of Jamalullail Chair-Majlis Agama Islam dan Adat Istiadat Melayu Perlis (MAIPS) and Research Management Center (RMC) IIUM, Co-researcher, June 2022 - present, RM20000

AHMAD ANWAR BIN ZAINUDDIN

ASSISTANT PROFESSOR
DEPARTMENT OF COMPUTER SCIENCE

ABOUT ME

International Islamic University Malaysia (IIUM) awarded me a BSc in Communication Engineering in 2011, an MSc in Electronic Engineering in 2014, and a PhD in Engineering (Computer Engineering) in 2020. From 2011 to 2015, I worked for Silterra Malaysia as an engineer. In particular, semiconductor process engineering, failure analysis, the development of wireless sensor network products, Internet of Things (IoT) sensor development, and IR 4.0 readiness. The IEEE Electron Devices Society Malaysia Chapter awarded me the IEEE Postgraduate Award of Excellence for Outstanding Project in MEMS and Nanoelectronics in 2018. My paper received the Best Paper Award (Research Category) at the International Symposium on Engineering and Technology 2021 organized by UNIMAP in Malaysia. My product "Modelling of IoT and Computer Vision Associated PMS (ICV-PMS) For Bio-Signal Monitoring and Emotion Recognition" received a bronze medal at the International Invention, Innovation, and Design Expo (INoDEX 2021). I was ultimately chosen as the recipient of the IEEE EDS Malaysia Chapter's 2021 Final Year Project for supervising an FYP student. My previous IoT project was also awarded gold at the International Conference and Exposition on Inventions by Higher Education Institutions (PECIPTA 2022) and National Innovation and Invention Competition (NIICe 2022). Since 2020, the Malaysia Board of Technologists (MBOT) has recognized me as a Professional Technologist with Practice Certificate (Ts) in relation to my professional endeavors. I am interested in researching robust distributed systems and healthcare-related digital technologies.

RESEARCH EXPERTISE

Biosensor; Internet-Of-Things;
Computer Networks; Robot
Operating System (ROS)

QUALIFICATION

- Doctor of Philosophy-PhD. (Engineering), 2020, Title: Integrated electrochemical and mass biosensor for early dengue detection International Islamic University Malaysia.

PROFESSIONAL MEMBERSHIP

Member of Institute of Electrical and Electronics Engineers (IEEE), USA - 92725722; Member of Institution of Engineering and Technology (IET), UK - 1100899615; IEEE Electron Devices Society Membership, USA; Professional Technologist with Malaysian Board of Technologist (MBOT). - PT20090040; Graduate Engineer with Board of Engineers Malaysia

ACHIEVEMENT AND AWARDS

Gold Award, (PECIPTA) 2022; Gold Award, The National Innovation and Invention Competition (NIICe) 2022, MODELLING A SMART PARKING MANAGEMENT SYSTEM (SPMS) BASED ON INTEGRATED IOT; Silver Award, International EUREKA Innovation Exhibition 2022 (i-EIE 2022), REHABILITATION HAND VOLUME CONTROL BASED ON COMPUTER VISION

KICT WALK 2023: RECHARGE AND RECONNECT

Ahsiah Ismail

Asmarani Ahmad Puzi

Elin Eliana Abdul Rahim

Atikah Balqis Basri

KICT Sejahtera organised a KICT WALK on the 23rd of June 2023. The Staff members from Kulliyah of Information and Communication Technology (KICT) and IIUM Academy of Graduate and Professional Studies participated, with a total of 27 participants joining the event.

The program kicked off promptly at 8.00 a.m., with participants gathering at the cafeteria KICT. Upon arrival, participants registered for the event and each participant was given a refreshing homemade detox drink, a lemonade. This drink set the perfect tone for the activities ahead.

Beyond the physical benefits, this event offered participants the chance to recharge and reconnect with their colleagues through engaging in physical activities and sharing moments of laughter.

The event commenced with engaging activities. The opening remarks were delivered by the Dean of KICT, Prof. Ts. Dr. Abd Rahman B. Ahlan, setting a motivational tone for the event. This was followed by the warm-up and stretching session led by Br. Lukman Hakim Sani, effectively preparing the participants for the upcoming walk.

As the clock struck 8.15 a.m., the participants set out on their journey, exploring the route around the KICT and Kulliyah of Engineering (KOE) at the International Islamic University Malaysia (IIUM). The walk enabled participants to connect with each other by exchanging conversations and enjoying the fresh air.

The route led the participants through the KICT roundabout and KOE offering views and moments of reflection. Upon returning to the initial meeting point, the Deputy Dean of Postgraduate and Responsible Research, Prof. Dr. Murni Bt. Mahmud, delivered her closing remarks and expressed gratitude to all participants for their involvement. Prof. Dr. Murni Bt. Mahmud also extended appreciation for the initiative behind the walk. As the event drew to a close, a celebratory cheer led by Dr. Mohd Syarqawy Bin Hamzah, the Deputy Dean, Student Development and Community Engagements, symbolized the unity and strengthened bonds that were fostered throughout the event.

At 9:00 a.m., the event concluded and participants dispersed, each carrying with them a sense of memories. The event not only contributed to the physical well-being of the participants but also offered a precious chance for recharging and reconnection. It created lasting memories and a stronger sense of community among the staff. The participants look forward to another opportunity to unite in the spirit of wellness and togetherness.

Normaziah Abdul Aziz

PPR Lembah Subang (PPR-LS 1) community comprises of low-income (B-40) families who stay in low-cost flats provided by the government. They are located at Lembah Subang, Selangor which is about 32.5 km from IIUM Gombak campus.

The community is under the purview of the Department of Social Welfare for state of Selangor, under the Ministry of Women, Family and Community Development.

IIUM m-Kitchen team paid a first visit to the community representatives at surau alFirdaus to get to know them and understand their needs. m-Kitchen was represented by its founding members – Tn Hj. Abdul Rahman Ahmad Dahlan, Prof Suhaimi Mhd. Sarif, Prof. Dzuljastri Abdul Razak, and Prof. Rahmah A. H. Osman. Other founding members Tn Hj. Jamal Ibrahim and Dr. Ghazali Jaapar were unable to attend but contributed their thoughts in our planning.

We then developed a plan to match our capability and the community needs. There are several other entities who provide community services to them. Hence, we avoid any overlapping of activities. Taking into consideration on the distance of our campus to Lembah Subang, and the involvement of other entities' programs, our plan is to have three to four community activities quarterly, with PPR-LS1. Follow-ups and online consultancies are made available all year round.

IIUM m-Kitchen with PPR-LS1 community activities are of educational nature where we share relevant knowledge and skills to both adults and youngsters, as follows:

For adults – Sharing of knowledge on F&B matters such as recipes, food packaging, and basic business skills. In these activities, during our interactions, we embed Islamic values and motivate the participants to be positive and work hard for success in this world and the Hereafter.

For children and teenagers – Enhancing Reading, Counting and Writing skills; Practising basic ibadah (eg. Quran recitation, Solat); Sharing of real-life hardship experiences towards success; Motivating them to perform best in their studies; and sharing tips on after-school education and Career guidance.

Our knowledge sharing modules and experience with PPR-LS1 can be used for other PPR community located elsewhere.

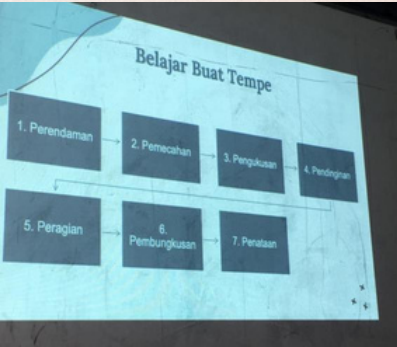

The following pictures are activities of m-Kitchen team with PPR-LS1 community that had taken place.

m-Kitchen first visit and discussion with PPR-LS community representative on 13th Sept 2022

Session on affordable home-made Pizza by Dr. Maznah and Dr. Normaziah on 3rd Dec 2022

TemPe YaNa

Session on Preparing Tempe with Dr. Dini handayani, Madam Norazian and Dr. Normaziah on 8th Jan 2023.
