KULLIYYAH OF EDUCATION INTERNATIONAL ISLAMIC UNIVERSITY MALAYSIA

The Kulliyyah of Education (KOED) IIUM, offers a unique experience of an Islamic, integrated and international programme with an emphasis on comprehensive excellence. It provides up-to-date educational facilities - microteaching studio, computer laboratories, spacious classrooms, a well-equipped library and excellent research facilities. The Kulliyyah comprises of prominent scholars in various fields of specializations. Besides offering excellent academic programmes, the Kulliyyah also has specialized centers to complement it.

The Kulliyyah was established as a Department of Education on July 16, 1987. It was set up to assist in meeting Malaysia's need for graduate teachers. It offered the Diploma in Education programme to prepare teachers to teach in secondary schools. The programme began with 113 pioneer students directly under the charge of the Deputy Rector (Development). It offered the following specializations:

1. Islamic Education
2. Arabic Language
3. Malay Language
4. Commerce and Entrepreneurship, and
5. English Language

In 1989, in response to the need expressed by the Ministry of Education, a Board of Studies comprising members of the University's Department of Education and relevant authorities in the Ministry of Education proposed that a Master of Education programme be established providing concentrations in five areas, namely:

1. Teaching of Arabic to Non-Arabic Speakers
 2. Teaching of Islamic Education
 3. Teaching of Quranic Education
 4. Educational Administration, and
 5. Guidance and Counseling
- 

The IIUM Senate, and the Educational Planning Committee of the Ministry of Education subsequently approved this proposal, and the Master of Education Programme was launched in 1990. In 1990, the Department of Education was placed under the Kulliyyah of Islamic Revealed Knowledge and Human Sciences as a department.

In May 1997, the Department began offering a limited Bachelor of Education Programme in Arabic Language and Literature to upgrade the knowledge and skills of teachers from the Ministry of Education's Special Diploma Programme (KDPK). The Doctoral (Ph.D) Programme in Education was approved by the Ministry of Education in 1999. The Centre for Teaching Thinking was established in 2006 to enhance meaningful learning and critical, creative and ethical thinking skills among teachers and students.

In July 2012, four departments were established in the Kulliyyah. They are the Department of Social Foundations and Educational Leadership, the Department of Educational Psychology and Counseling, the Department of Curriculum and Instruction, and the Department of Language and Literacy.

KULLIYYAH'S PHILOSOPHY

Programmes and activities of the Kulliyyah of Education are founded on the principles contained in the philosophy of IIUM, which was inspired by the recommendations of the First World Conference on Muslim Education held in Mecca in A.H 1398 (A.D. 1977). The spirit of this philosophy is based on the Holy Qur'an, in particular the five verses revealed to the Prophet Muhammad, namely, Surah al-Alaq, verses 1 - 5. Briefly these principles are:

1. All interpretations of knowledge are based on an Islamic worldview of Life, the Universe and Creation.
2. The basis for the interpretation of all forms of knowledge is Tawhid and its manifestation in our way of life. Knowledge, therefore, shall be propagated in the spirit of Tawhid, which stipulated that Allah is the Absolute, the Creator, the Master and the Cherisher of the Universe.

3. The ultimate purpose of knowledge is to lead man to the realization of his position as a servant of Allah and His Khalifah on earth and to prepare him to fulfill these roles and be accountable to Allah with regard to his deeds and action.
4. The interpretation and propagation of knowledge proceed from the recognition of "wahy" as divinely revealed, which must take precedence over acquired knowledge.

KULLIYYAH'S VISION

To become a renowned Islamic centre for education nationally and internationally, consistent with the vision of the IIUM.

KULLIYYAH'S MISSION

To produce dedicated researchers, scholars, and educators to develop Islamic approaches in the construction of knowledge relevant with contemporary socio-cultural conditions.

To foster research endeavors in various fields of education which will contribute towards the development of the nation and Ummah.

KULLIYYAH'S OBJECTIVE

The objective of the Kulliyah of Education is to develop and propagate the Islamic concept, theory, practice, and system of education which is capable of producing successive generations of Muslims who not only serve Allah faithfully and are committed to follow His guidance in all aspects of their life but are also knowledgeable and skillful so as to bring benefits and avoid harm to themselves, mankind and the universe.

Specifically, through its programmes and activities of teaching, research and publication, the Kulliyah of Education aims to produce all levels of professionals in education who are endowed with the following characteristics:

1. Proactive, critical, creative and innovative.
2. Subscribe in total submission to the command of Allah.
3. Committed to follow Allah's guidance in all aspects of their lives
4. Knowledgeable and skillful in applying various educational principles, techniques and technology.
5. Able to carry out and are totally committed to the mission of developing and nurturing Islamic personality in their students
