GEM offers inter-disciplinary courses all conducted in English, designed for exchange students as well as Doshisha students to foster a better understanding of Japan in a global context. GEM provides learning opportunities in different fields ranging from the humanities and social sciences to the natural and human sciences.

By studying together in a small and interactive class, exchange students and Doshisha students can have more opportunities to have meaningful contact with one another, and benefit from the diversity of perspectives that are represented and shared in the classroom. In this way, GEM offers a unique space for academic collaboration between exchange students and Doshisha students that is intended to foster a dynamic academic environment.

GEM students from English-speaking countries, or whose English proficiency proves equivalent to a native speaker may also enroll in courses offered by The Institute for the Liberal Arts (ILA) after consideration (up to 3 courses). ILA courses are also conducted in English at a native level and focus mainly on Japanese

culture and society. However, requests to register for ILA courses may not always be granted as many ILA courses have limited space for enrollment.

GEM students are also permitted to enroll in some courses offered by Japanese Language and Culture Module (Nichibun) in accordance with their Japanese proficiency (up to 3 courses). To take the Nichibun courses, students must take Japanese Language Placement Test.

Japanese language courses are divided into 10 levels (Basic, Elementary level I – High Advanced level IX) based on student's Japanese ability and designed to improve four basic skills of listening, speaking, reading and writing in a balanced manner.

If Japanese Language Placement Test proves your Japanese proficiency sufficient for the courses for undergraduate students\*1, you may take courses from an undergraduate subject area. Courses that are available vary depending on each student's Japanese level. Also note that there are courses that cannot be taken by GEM students. Such include seminar courses, subjects offered by Faculty of Science and Engineering and Faculty of Life and Medical Sciences, and subjects not open to other faculty students. GEM students may take up to 3 courses in total, courses offered by each faculty and the Nichibun.

\*1 Only those who enroll in graduate school at their home university may take some of the courses offered by graduate schools.

### **3. Credits**

GEM considers a course that meets for two hours, once a week (x15 weeks) as two credits (except for Japanese language classes).

The maximum course load for GEM students is 30 credits for one year (15 credits per semester). Credits of taking Nichibun courses and ILA courses are also included in the maximum course credit load.

Students should take more than 7 classes (1 class=90 minutes) at least per week. It is prescribed by law\*2.

\*2 Ministerial Ordinance to Provide for Criteria Pursuant to Article 7. Paragraph (1), item (ii) of the Immigration Control and Refugee Recognition Act.
